

Relaxure

Weight	
For 10ft side	77.2lb
For 3m side	35kg

Relaxure

Weight	
For 13ft side	92.6lb
For 4m side	42kg

Relaxure Sunshade Specifications

Shade Fabric	
Parameter	Description
Material	Glass Fiber Nano-Textile
Thickness	0.68mm ± 5%
Density	14x14 threads/cm
Tensile Strength	2523N/5cm
Flame Resistance	NFPA 701 certified, ensuring safety even during BBQs or high-heat exposure
Open Rate	≤5%, for privacy
UV Protection	≥97%, blocks UV rays
Water Resistance	Prevents rain from entering, even in strong winds
Aging & Color Fastness	ASTM D3691/D3691M

Frame & Track	
Parameter	Description
Material	Aluminum Alloy 6063-T6
Coating	AAMA2605 Powder Coating
Weather Resistance	ASTM G154
Corrosion Resistance	ASTM B117
Track	Thick, one-piece dual-layer for smooth operation
Adjustable System	Infinitely adjustable height for flexible shading
